Subject: WR473569 HDR Refurbishments - The Slatter Group WA

Dear Mark

Curtin University would like to express its thanks for The Slatter Group's input and dedication in successfully completing the HDR Refurbishment projects in B106E, B310 and B407 at the end of 2016.

We recognise the time and effort spent by the whole Slatter Group team in ensuring the high quality of the built outcome and close attention in managing project costs. In addition, the ongoing input and advice from Nigel, Michael and Scott throughout the design and delivery process was key to ensuring the project met end-user requirements and achieved the very tight timeframe for completion.

We appreciate the relationship that Curtin has developed with The Slatter Group WA and look forward to this continuing in the future.

Regards

Libby
