:Ref-Letter-Slatter

27/02/2014

To whom it may concern,

This letter is to confirm that we contracted Slatter construction for the build of our new Jetts 24/7 gym down in Busselton WA.

We had a great experience with Slatter, with great communication throughout the build. The project was well timed and finished well within the timeframe. The finish and works done were of high standards and they were very helpful and accommodating throughout the project.

Slatter has done many builds now for Jetts Fitness here in WA and we would have no issues in recommending them.

Healthy Regards
