RE: Reference Letter – Slatter Constructions

This is to confirm that I have dealt with Slatter Constructions on numerous projects in my previous job as a Project Manager, working at Building Management & Works (BMW), within the Department of Finance and in my current role as Manager, Campus Projects and Maintenance, at Murdoch University.

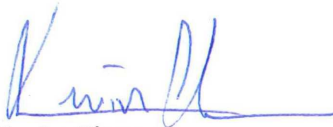

Slatter Constructions have been awarded contracts based on competitive tender and in all instances; they have demonstrated a commercial and administrative capacity to handle the various complexities of projects expeditiously and professionally. Quality of workmanship on all projects has been of a high standard.

It has been a pleasure working with Mark Slatter and Rob Murrell from Slatter Constructions, as they are very organised in their programming and have a very good appreciation on the pressures that each project presents. They are pro-active and helpful in seeking the best solutions and outcomes and are very professional towards the client.

Slatter Constructions have completed works for me on budget and on time and in challenging environments.

I have no hesitation in supporting Slatter Constructions application for Builders Qualification Level 3 with the Department of Finance.

Yours sincerely

Kevin Chua
Manager Campus Projects & Maintenance
